« Soft Control » 50 mm self-closing device with damping function

Technical specification:

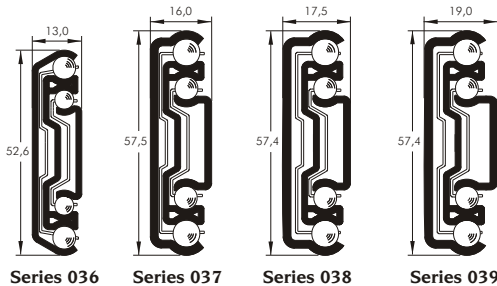

- Self-closing device with air-vacuum damper
- integrated in SCHOCK full extension slide
- 50 mm pull-in action
- Auto-correction
- Load rate Series 037/038/039: 40 - 70 kg
- Load rate Series 036: 30 - 50 kg

Advantages:

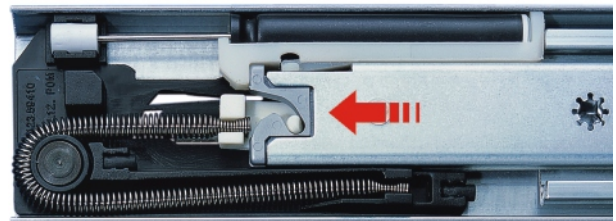

- automatic low-noise closing action
- visual harmonised closing movement
- pre-assembled, ready to install
- no additional space required

Applications:

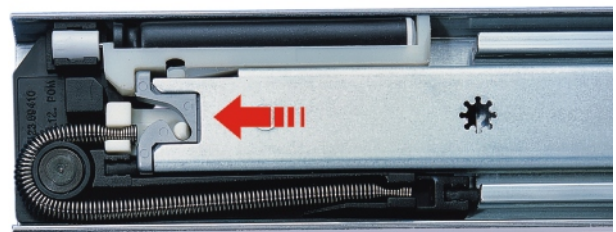

All full extension slides in compact design (e.g. for drawers, wire baskets, waste separation systems, shopfitting equipment, filing frames, store and warehouse equipment etc.)

Full extension slide with "Soft Control" opened

Full extension slide with "Soft Control" activated

Full extension slide with "Soft Control" closed
