Actuation systems for locking gas springs

SOFT-O-TOUCH®

1000/020511 dpartner.com Not responsible for typographical errors and changes.

SOFT-O-TOUCH

Mechanical actuation systems for ultimate convenience

We turn ideas into solutions. Innovative thinking sparks innovations. STABILUS SOFT-O-TOUCH is an actuation system that does its part to make our lives more convenient, easier and safer. In conjunction with BLOC-O-LIFT gas springs STABILUS SOFT-O-TOUCH allows lifting, lowering, and adjusting components at the push of a button.

Five push-buttons to bring movement to your application

Our SOFT-O-TOUCH programme offers complete release systems for STABILUS BLOC-O-LIFT gas springs. Pre-assembled Bowden cables connect push-buttons - that can be ideally positioned for easy actuation - with hard to reach BLOC-O-LIFT gas springs in your application. These ergonomic push-buttons are easily actuated due to specially designed release heads. High quality materials and attractive designs make SOFT-O-TOUCH ideal for many sophisticated applications in the furniture and medical industries as well as in vehicle seats and the general engineering segment. Push-buttons with axial or lateral Bowden cable configurations give you even more design flexibility. The result: Comfort, which will give your products added value.

Release heads	Force	G / thread	Part no.
Soft Release 	for BLOC-O-LIFT gas springs to F1 = 500 N suitable for release strokes up to 2,5 mm	M8x1	075291
		M10x1	006837
Ultra-Soft Release 	for BLOC-O-LIFT gas springs to F1 = 1000 N suitable for release strokes up to 1,0 mm	M8x1	074574
		M10x1	112485

Release systems suitable for BLOC-O-LIFT gas springs. Please pay attention to the mounting instructions STAB-Spec 10180873
